

Rain Checks Fires Which Raged Three Days and Three Nights in Ruins of Tokio

Greatest Immediate Problem Is Disposition of Thousands of Bodies.

612 SEPARATE SHOCKS

Almost Continuous Tremble of Earth Between Saturday Noon and Monday Morning; Ambassador Woods Given Quarters in British Embassy.

By United Press.

TOKIO, Sept. 6.—(By courier).—A merciful rain has fallen upon Tokio. The great fire, which has swept the city for three days and three nights, blinding and enveloping the wreckage in clouds of steam, has finally died down. This enables work of rescue to proceed in more orderly fashion and scores of the injured are being brought into relief stations.

Wild, wind and fantastic are the scenes as the people of the city endeavor to adjust themselves to conditions of the disaster. Slender youths walked through the streets carrying big Japanese swords, aiding the police and military in maintaining order and assisting in the search for bodies. The stench of corpses is becoming almost unbearable. The dead litter the streets in some sections. Among the ruins of burned houses are half incinerated bodies.

Soldiers have taken over the task of endeavoring to save the city from the consequences that might naturally follow such conditions. Bodies are impossible and the soldiers are bending their efforts towards hastening cremation.

American Ambassador Woods and other foreign representatives and their staffs whose embassies or legations were destroyed or damaged are being furnished temporary offices in the British embassy, which was only slightly damaged.

Your correspondent, cooperating with the war office, has completed a three-day investigation and check of events. The records show there were 612 separate shocks felt in Tokio from noon Saturday to 6 A. M. Monday.

A semblance of order has now been attained, but the population is still stricken with terror and in fear of fresh outbreaks. Telephone and telegraph communication between Tokio and Osaka is now partially restored. A special relief bureau is erecting tents for refugees from outlying villages on the grounds of the imperial palace.

All military drill grounds are being used for refugee centers. Many of the foreign survivors are now endeavoring to reach Kobe. It is estimated that 1,000 have already reached there and more are due today. A majority of these foreign survivors are destitute and many are injured.

Immediately following the quakes fire sprang up in every direction. No less than 15 big blazes were counted, breaking out simultaneously.

On Saturday and Sunday passed and the fires continued the snail of burned human flesh permeated the air. The stench from the bodies, the strings of dead littering the streets, the cries of the wounded and the pleas of the dying touched the senses with sight and sound that the one who walked through the street of this city of the dead can ever forget.

Thousands of Japanese seemed to die simply of heart failure. The fiery furnace into which the capital's business section was changed in a few moments by the heaving earth shocks was so terrifying a sight that many inhabitants merely lay down where they were and died.

Three hotels in the bluff residential district of Yokohama were hurled over a cliff by the first tremendous shock there and their occupants dashed to death.

SAN FRANCISCO, Sept. 6.—Steamers from Seattle and Portland are steaming today toward Tokio carrying relief supplies for the stricken cities of Japan.

This armada of mercy will be augmented enroute by steamers from San Francisco and from other coast ports.

The entire rice crop of California is to be shipped to Japan.

NEW YORK, Sept. 6.—The establishment of the Episcopal Church in Tokio was wiped out, a cablegram received by Dr. John W. Wood of the department of missions from Bishop McKim of Tokio said today. All missionaries, however, are safe. The property destroyed includes St. Luke's Hospital, two schools, the cathedral, seven churches in various parts of the city and the bishop's and 15 other residences.

WASHINGTON, Sept. 6.—Major Crane of the American embassy staff at Tokio and Mrs. Crane were reported to the State Department today as missing. In a message from Ambassador Woods.

Woods repeated the statement of a previous message that all the rest of the embassy personnel was safe.

Two cables were received from

Greenwood Women Raise \$65 for Japs

Sixty-five dollars was raised at a special meeting of the society yesterday afternoon at the home of Mrs. Thomas Reil of the West Side.

COVE RUN FREE METHODISTS GIVE VERY LIBERALLY

Special to The Courier.

DUNBAR, Sept. 6.—Last Sunday was a red letter day in the history of Cove Run Free Methodist Church in Yauger Hollow. It being the final day of Uniontown District quarterly conference. Every service of the conference, which began Friday noon, drew a full house and abounded in enthusiastic genuine service. The presiding elder, Rev. Campbell of Uniontown, conducted the meetings, and the pastor, Rev. O. O. King, cared for the many visitors. Some persons seem to think the Free Methodist Church is small and unimportant, but from this one district alone came 15 ministers regularly ordained and local, and they carried enough enthusiasm around with them to count for many times their number as conference members generally do. From the time of the founding of the Methodist Episcopal Church by Bishop Francis Asbury, the term "shouting Methodist" has been in common use, and in all Methodist churches the shout of praise was often heard. But during the past quarter of a century pride has banished most of the shouting and quieted down the religious enthusiasm in most of the Methodist churches. This, however, cannot be said of the Free Methodist Church. It still maintains the old faith and abounds in the old enthusiasm. The services ring out with amen and hallelujahs. Bread is broken among the members in the old time lovefeast, and their pocketbooks as well as themselves are converted.

This has been a great year for Cove Run Church. A new roof has been put on, both interior and exterior have been painted and the walls papered, entailing an expense of \$1,000 or more, and it is all provided for. Last Sunday night the last \$200 needed was contributed in 15 minutes. Sunday morning Sunday School surpassed its enrollment of 200 by having 203 present. There were 70 in the Bible class taught by Mr. Lowry. The Sunday school contribution was \$270.

At the noon service the \$70 asked for the presiding elder was given in less than 10 minutes. A routing missionary meeting was held in the afternoon, and a substantial contribution was made for this cause.

Then in the evening the congregation raised over \$700 as a donation to the pastor.

Great Financial Loan for Japan Is Absolute Necessity

By United Press.

LONDON, Sept. 6.—A great financial loan will be necessary to ameliorate Japan's plight, according to J. L. Farnham, a representative of the National City Bank of New York, who is safe in Tokio.

"The earthquake is the greatest financial catastrophe of the age. People abroad have difficulty in realizing Japan's modernity. Her factories and machinery are swept away," Farnham said in special dispatches received here.

Woods after a long wait for information.

"Entire embassy staff reported safe with the exception of Major and Mrs. Crane, not yet heard from. Consul Kirilassoff and family and Miss Doris Babbitt were reported killed."

A second message from Woods detailed the sort of relief supplies needed for more than 1,000,000 homeless refugees.

"Any aid from American people for over 1,000,000 homeless Japanese should preferably take form of canned beef, flour, underclothes, galvanized iron sheets and mislabeled tinners for one story shelters," this message stated.

All Foreigners In Tokio Safe

GEORGE BAKER'S SLAYER GETS 18 MONTHS IN PRISON

Richard Thompson Is Convicted of Voluntary Manslaughter.

JURY OUT BRIEF TIME

Self-Defense Claim Put Up by Defendant in Trotter Killing, His Story Being That He Was Attacked by Baker Who Wielded Chair.

The case of Richard Thompson, colored, charged with the murder of George Baker at Trotter last July, was given to the jury at 10:30 o'clock today.

After the jury had been out less than an hour it reported a verdict of voluntary manslaughter.

Judge J. Q. Van Swearingen sentenced Thompson to 18 months to two years in the Western Penitentiary.

The arguments of counsel and the charge of Judge J. Q. Van Swearingen were brief, consuming less than an hour and a half.

Taking the stand in his own defense yesterday, Thompson testified that he shot in self defense. He said he had made every effort to escape Baker and that he believed his life was in danger when he pulled a 25 automatic revolver from his pocket and opened fire. Baker, he said, had just declared, "Now I've got you, you and I am going to kill you."

As Baker advanced toward him with a raised chair, he said he opened fire. Asked why he shot the second time, he said Baker kept advancing.

The trouble originated over a report that Hester Baker had abused Alma May Baker, 12-year-old child of the deceased. George Baker, the deceased, had been residing in Washington. His wife died some years ago and Hester Baker, wife of Hugh Baker, took the child into her family. Hugh Baker, husband of Hester Baker, told his wife if his brother George came for the child to let him have her and give him her clothes.

Shortly after dinner on the afternoon of the killing, George made his appearance. The daughter first saw him in the alley near their home when he whistled for her. When she did not answer he whistled again and continued on Page Ten.

NO PROGRESS IN EFFORTS TO SETTLE COAL CONTROVERSY

By United Press.

HARRISBURG, Sept. 6.—The final conference of the operators and miners of the anthracite coal fields were discussed for two hours and a half this morning at a meeting with Governor Pinchot. When the session recessed for lunch there was no indication that either side had receded from its position. Although Governor Pinchot insisted progress had been made both operators and miners declared the situation was unchanged.

HARRISBURG, Sept. 6.—Representatives of anthracite mine operators and officers of the Miners Union yesterday agreed in conference with Governor Pinchot of Pennsylvania, in material changes in positions which they have hitherto held and which have resulted in suspension of mining.

The employers' group tentatively abandoned its demand for arbitration which the union has unyieldingly opposed.

Miners union officials definitely accepted the 10 per cent wage increase which Governor Pinchot tendered in an effort to compromise the dispute but asked more than that amount for day laborers employed in and around the mines. They did, however, agree to modify the demand for a check-off of union dues by limiting the amount which could be collected by it from individual miners.

Both the employers group and the union committee which met with Governor Pinchot in executive sessions, regarded their arbitrations of original stand as concessions.

Though the employers agreed to drop, for the time being, the demand for arbitration and to make a one year contract covering wages and working conditions, they were said to be entirely unwilling to grant more than a 10 per cent wage increase.

Pending the resumption of negotiations more of the spokesmen on either side had a definite opinion to express as to whether an actual basis for settling the strike had been worked out. The employers were unwilling to take even a limited application of the "check-off" system, according to expressions available, while the union leaders expressed the determination to obtain the large wage increase for day men or continue the suspension.

WESLEY CHAPEL SEMI-CENTENNIAL IS NEXT SUNDAY

Bishop Francis J. McConnell Will Be Principal Speaker of the Day.

DR. HUTCHINSON LISTED

Local Minister Will Deliver Address at "Platform Meeting" in the Afternoon; Event Is to Celebrate Erection of Building Now in Use.

Special to The Courier.

SCOTTSDALE, Sept. 6.—A large gathering is expected at Wesley Chapel next Sunday for the celebration of the 50th anniversary of the building of the present church. The services will begin at the morning worship at 10:30 o'clock, with a sermon by Bishop Francis John McConnell, resident bishop of the Pittsburgh Area.

At noon there will be a basket picnic dinner, with free coffee served on the grounds.

In the afternoon there will be a platform meeting under the leadership of District Superintendent Henry M. Cameron, D. D., of Dawson, when the principal address will be made by Dr. Bennett W. Hutchinson, pastor of the First Methodist Episcopal Church of Connellsville, who spent his boyhood in the vicinity of the chapel.

Many invitations have been sent out to former pastors and others who have removed from the neighborhood. The evening service which had been scheduled and advertised will be abandoned and all attention given to the morning and afternoon meetings.

On account of the round at Wesley Chapel there will be no services of any kind at the Jacobs Creek Church. Rev. Henry Price is pastor of Wesley Chapel.

The building of the present church was begun in 1869 and it was dedicated in the spring, February or March, 1870, Dr. I. C. Parbury being the pastor at the time. This makes the church really about 55 years old.

The old church was built some time in the early fifteenth century. It was attached to the Jacobs Creek Church and was a part of the Connellsville Circuit.

FIREMEN'S FESTIVAL AT DUNBAR WILL HAVE NUMEROUS FEATURES

Special to The Courier.

DUNBAR, Sept. 6.—Everything is in readiness for the big demonstrations tonight and Friday evenings, when, in connection with the demonstration of the new chemical fire truck, a musical concert by the Dunbar Military Band and a festival will be held for the benefit of the Volunteer Fire Company, and the enthusiasm with which the people have gone into the affair insures one of the greatest celebrations in the history of the town. One of the specialties will be a cake-baking contest. Among the women of the town, each of whom is determined to do her best, hopeful that the judges will award her the prize and red ribbon. The cakes, many of which are elaborate, are donated for the benefit of the fire company which is using the demonstration to meet the needed balance to pay for the fire truck.

Then there will be a beauty prize for the prettiest girl, and her "follow" will not be accepted as one of the judges. And there are various other prizes and contests in all of which the whole community is interested. But the interest is not confined alone to this community, but from many other sections even as far away as Pittsburgh, come donations showing proof of interest in the enterprise of the furnace town.

In planning for the parade a unique feature is an invitation to all candidates for county offices to be present and march in a body so that the voters can compare their various merits and not be obliged to select a ticket "sight unseen."

All that is needed now is fine weather to make this week's celebration a great success. Seven o'clock is the hour set for beginning of the musical part of the entertainment, and other events will follow rapidly.

Boy Struck by Car. Bonnie Kronick, son of Louis Kronick, was struck by an automobile driven by Wilson McClaren about noon in Fairview avenue and slightly injured. He suffered a laceration of the head. He was attended at a physician's office and then taken home.

Rev. C. L. Daugherty, pastor of the Trinity Methodist Protestant Church, North Side, Pittsburgh, was unanimously elected president of the Pittsburgh District of the Methodist Protestant Church at the 13th annual session of the Pittsburgh conference in session in Overbrook Church, Pittsburgh. Rev. Daugherty has a number of friends in Connellsville.

Rev. O. W. Bolton, pastor of the Dunbar Church was elected statistical secretary.

Mrs. Gladden to French. Rev. T. M. Gladden of New Brighton, son of Mrs. W. H. Gladden of Greenwood, will preach next Sunday morning and evening in the First Methodist Protestant Church.

350,000 BUILDINGS IN TOKIO ARE DESTROYED

By United Press.

SAN FRANCISCO, Sept. 6.—Thirty thousand killed, 100,000 injured and 350,000 buildings destroyed in Tokio is the latest estimate of the toll of Saturday's earthquake and subsequent fire made by the Japanese home ministry, according to a message received by the Radio Corporation of America today.

The radiogram was forwarded by the government's wireless station, Tomioka. "Yokohama has been annihilated," the message said. Measures are being taken to guard foreigners against suffering, the radiogram declares.

FAYETTE DELEGATES TO SONS OF ITALY CONVENTION HONORED

E. Bufano of Connellsville Named Commissioner of Orphanage Near Philadelphia.

Fayette county delegates to the state convention of the Sons of Italy at DuBois were honored by that body which held its sessions from August 31 to September 3, inclusive.

P. Bufano of Connellsville was elected a commissioner of the Sons of Italy orphanage near Philadelphia.

Jerry Barber of Uniontown was re-elected a trustee of the grand lodge, V. D'Auria, also of Uniontown, was elected representative to the supreme lodge.

Two hundred fifty delegates attended the convention. This was but a small part of the throng which congregated in the town for the sessions. The convention hall was crowded at all times.

Mr. Bufano returned Wednesday.

FIRST AID CAR OF INTEREST TO GENERAL PUBLIC

The first aid instruction car of the American Red Cross, operating out of Washington, D. C., over the Baltimore & Ohio System, in an effort to stimulate interest in first aid work at various points, had an interesting schedule of meetings arranged for today and tomorrow, with the possibility of arranging for more demonstrations and talks at a number of the city's industries.

The car is on a siding in the rear of the Baltimore & Ohio station and is open to the public. Meetings for everyone are held at 7:30 o'clock each morning in the car and a general invitation to attend is extended. At that time brief but interesting and educational talks are made by Dr. W. D. Redel and Dr. E. C. McLeod.

This morning Dr. Redel addressed the students of the Connellsville High School and conducted a brief demonstration during the chapel exercises. He expressed the hope that first aid classes would be formed in the school and the students interested in the work.

At noon Dr. Redel spoke before the members of the Rotary Club. At 1:30 o'clock the clerical forces of the Baltimore & Ohio railroad met in the car and heard a talk by Dr. McLeod.

At 3 o'clock this afternoon a demonstration for firemen was held in the Baltimore & Ohio shops. There was a meeting in the car at the same time. A public meeting for 7:30 o'clock this evening was also arranged.

There will be a meeting of car and firemen in the car yards at 12:30 o'clock tomorrow afternoon the shop employees of the West Penn will attend a demonstration at the West Side shops. Two more public meetings will be held tomorrow, one at 3 o'clock and the other at 7:30 o'clock.

The men in charge are anxious to hold more meetings in industrial plants where the organization of first aid classes results in the reduction of accidents and a cutting down of compensation payments.

The car will leave here Saturday morning.

B. & O. Will Stop Train for Students

In order to accommodate the many students from Jacobs Creek and Smithton attending the Connellsville High School, the Baltimore & Ohio Railroad is again stopping Train No. 23, formerly No. 16, at these points. The stops are not made on Saturdays and Sundays, however.

A large number of students from these places come here and No. 23 is the only train running at a time suitable for the return of the students to their homes. During the summer months when there is no school the train does not make the stops.

Rev. C. L. Daugherty, pastor of the Trinity Methodist Protestant Church, North Side, Pittsburgh, was unanimously elected president of the Pittsburgh District of the Methodist Protestant Church at the 13th annual session of the Pittsburgh conference in session in Overbrook Church, Pittsburgh. Rev. Daugherty has a number of friends in Connellsville.

Rev. O. W. Bolton, pastor of the Dunbar Church was elected statistical secretary.

LEAGUE COUNCIL VOTES TO-MEDIATE ITALY-GREECE ROW

Action May Mean Withdrawal of Rome Government From World Association.

NEXT STEP A PROBLEM

Collapse of Nations' League Would Follow Victory for Mussolini in Distant Stand; Italian Destroyers Occupy Greek Isles; Ships Retire

By United Press.

GENEVA, Sept. 6.—The League of Nations Council has affirmed its competency to adjudicate the Italian-Greek dispute, in the face of Italy's threat to leave the League if this is done.

The council met in private this morning with no Italian delegates present. A decision sustaining the League's competency, which was challenged by Mussolini, was taken and a public session of the council called for 5 P. M. for the purpose of adopting a resolution to that effect.

The council's decision means that the League will stand on its rights to enforce the provisions of Article 10, regardless of the size of the nation involved.

Mussolini protested that Italy's dignity and honor were involved and that this was not a matter in which the League was competent to mediate.

If Italy does like her delegate, Sulandrea, threatened, she will now withdraw from the League. What steps will then be taken in the Greek-Italian impasse remains to be seen.

LONDON, Sept. 6.—While the League of Nations Council at Geneva considered intervention in the Greek-Italian dispute new antagonistic moves on the part of Italy heightened pessimism here.

Italian marines occupied three more islands in the vicinity of Corfu. Italy filed with Greece a claim for from 15,000,000 to 20,000,000 lire as the first cost of the occupation of Greek territory as a punitive measure for the slaying of Italian commissioners at Janina.

A regiment of infantry was gararrisoned at the Greek islands of Paxos and Antipaxos. A Greek journalist named Iramenos was arrested by Italians while in a sailing vessel on the high seas.

GENEVA, Sept. 6.—The peace of the Balkans, with the alternative of another general war which may involve all Europe, hung in the balance today as the council of the League of Nations hesitated. If the council decides to ignore Italy's claims and adjudicate the Italian-Greek dispute despite the threats of Premier Mussolini to withdraw from the League it will merely be an issue of strength between Italy and the League of Nations.

If the council declines to assert its right and power to answer the request of Greece for mediation, statesmen of the leading nations declare the following things will happen: The whole structure of the League will be undermined and the society of nations will collapse.

Four treaties which ended the world war will be imperiled, for clauses which bind their signatures are similar to those of the covenant of the League.

All decisions of the League by which several smaller nations are adding against their will will be nullified.

CORFU, Sept. 6.—Landing parties from three Italian destroyers peacefully occupied the islets of Merloria, Pano and Samotraci, south of Corfu, this morning.

ATHENS, Sept. 6.—To avoid the risk of a clash with the Italian navy Greece today ordered all her ships to retire into the Bay of Volo.

Troop 5 Scouts Will Celebrate Winning of Cup

Plans for a banquet to celebrate the winning of the Scout meet at the American Legion picnic will be made by Troop No. 5 at its regular weekly meeting tomorrow evening. By winning this year's meet Troop No. 5 became permanent owner of a beautiful silver loving cup and the members are now planning on holding a banquet and will invite a number of guests. A number of speakers will also be secured for the occasion. A date will be decided upon at the meeting.

The troop held banquets the past two years to celebrate the winning of the meet. Scoutmaster Ralph J. Sliger is expecting a very member report.

Rural Carrier Examination. A civil service examination will be held at the Postoffice Saturday, September 22, for rural carrier for the Vanderhill route. Applications for the examination can be secured at the Postoffice.

Undergoes Operation. John Lucas of Dunbar underwent an operation for appendicitis at the Cottage State Hospital this morning.

The thick, rich LATHER made
by Sweetheart Soap in hot or cold
water, hard or soft, is the kind of
lather that really cleanses. It's the
kind that readily works its way into
the fine grain of the skin and dis-
solves out the pore-refuse and
grime.

THE CLEANSING POWER and
protective PURITY of Sweetheart
aid greatly in the culture of a clear,
fine-textured skin.

Sweetheart is just supremely
good PURE soap, made on honor
from fine materials—but with no
coloring matter, heavy perfumes
nor fancy wrappings to add useless
cost. That's why Sweetheart qual-
ity sells at so low a price.

A hand-fitting oval cake. Non-
floating because it is heavily pressed
solid soap—not lightly moulded
from disintegration foam. Delicately
scented.

Just try one cake of Sweetheart,
from your grocer or the better
druggists.

EVER GO FISHING?

Remember the carefree days when
as a barefoot boy you went fishing?
You will be able to live them all over
again in the leisure of a secure old
age if you have an Equitable policy
for a goodly sum maturing when you
are, say, 55 or 60. Now is the time
to begin saving. Many a man of 50
or older, who would really enjoy fish-
ing, cannot go because he must keep
his nose to the grindstone. A maturing
Equitable policy will give you this
means to buy leisure—and fishing
tackle—in your old age.

Thousands of sufferers have freed
themselves from the bondage of rheu-
matism; rid themselves of the tortur-
ing pain; reduced the swollen joints;
thrown away crutches and canes; and
from the helpless beings became able
to work and be of use to themselves
and their families.

They took Rheumatism—the modern
enemy of rheumatism, lumbago, sciatica,
arthritis, gout and chronic
neuritis.

Don't be skeptical about Rheuma-
tism. You will know in a few hours after be-
ginning the treatment that the poison-
ous uric acid is leaving your system
through the natural channels. You will
feel better in a day; you will know
you are going to be helped in less than
a week.

There is no guess work about
Rheumatism bringing you back to health.

MEMORIAL FOR MOUNT PLEASANT COUNCIL'S DEAD

Will Be Held at the Next Regular Meeting; Chairs Are to Be Draped.

OTHER NEWS OF THE DAY

Special to The Courier.

MOUNT PLEASANT, Sept. 6.—Town council Wednesday evening arranged for a memorial to the next regular meeting for Councilmen Blaine B. Colquhoun and William P. Henderson who died recently. A resolution was adopted also providing that their chairs be draped in mourning for a period of a month.

Along the line of beautification of the town council ordered that the diamond be grinded and that flowers be planted on the public space there.

Speed limit signs for motorists are to be placed about town, a resolution making provision for this expense being adopted.

A company being formed to erect a filling station on the old Dullinger property in Dalmont street was given a permit for a drive. Council then decided that hereafter a charge of \$1.50 a foot for the width of the drive will be made.

The sum of \$60 was appropriated toward the expense of the firemen in attending the Western Pennsylvania Firemen's Association convention at Vandergrift.

Burgess William M. Overholt reported 37 arrests during July and turned over to council \$283.50.

It was decided to remove a light in front of the home of Barney King in Church street and place one at Spring and Vine streets.

Twelve rubber suits were authorized for the fire department.

Other News.

Mrs. Ruth Detwiler of Pennsylvania, underwent an operation at the Memorial Hospital here yesterday.

A meeting will be held Thursday evening when an effort will be made to organize a drum corps in the fire department. James S. Braddock, an honorary member, will head the movement.

Mrs. Estelle R. Hatcher, colored, 31 years old, died at her home at Rainey. Funeral services were held yesterday and interment was made at Vandergrift.

William Lee Abbott, infant son of Mr. and Mrs. Bartley Abbott, is dead. The baby was born in December.

Miss Mary Malinda Gader, daughter of Mr. and Mrs. Frank Gader of West Main street, had as her guests over Sunday, Mr. and Mrs. Earl Adams of Pittsburgh, Miss Mildred Adams of Indian Head, Rachel Elizabeth Stillington of Homestead, Miss Sadie Kesler of Acme and Miss Anna Kennel of Scottdale.

Lydia E. Pinkham's Vegetable Compound Brought Relief When Other Medicines Failed

Winston-Salem, N. C.—"I was weak and run-down and had trouble with my side. I had been taking medicine for a long time and nothing seemed to do me any good. My husband went to the drug store and he said to the clerk, 'I want the best medicine you have for women's troubles.' He gave me a bottle of Lydia E. Pinkham's Vegetable Compound and I have helped me. In a short time I was able to do my housework and now I am not only able to do every bit of that and washing and ironing, but I help my husband of the store and feel good all the time."—Mrs. L. K. Myers, 1409 E. 14th St., Winston-Salem, N. C.

MOTHERS AND THEIR CHILDREN

For Baby's First Clothes.

One Mother Says: Most young mothers make their first baby's clothing too small. It is best to buy year-old patterns. A safe rule to follow in cutting an armhole is to make it large enough to slip the hand through easily. Neckline should measure at least nine inches—if too large at first they are easily drawn up with tape. Many a baby is cross and restless through being dressed up in tight clothing. The wrap-around effect, suitable for practically every type of figure, is combined with the softest of piled fabrics; colors in beautiful shades of brown and black, also kitfox grey. Further elaborations include trimmings of viska squirrel, fox, or other fine furs.

Black is the favored shade for Fall wear, and this model of black Gerona is an unusually smart affair. Shown in straight back effect, with tie sash fastening at side. Collar and cuffs are of good quality black fox. **\$89.50**

The wrap-around style is accentuated to a degree in this model of brown Cordora, shown with beaver collar; side pleating and straight back effect; side fastening. **\$110.00**

An exceedingly smart Coat of taupe colored Gerona, with kitfox collar and cuffs. Made in straightline style, full side, in wrap-around effect. Side fastening with large button. **\$139.50**

Grim Reaper

MRS. MARY E. PAUL, GREENSBURG, Sept. 6.—Mrs. Mary E. Paul, aged 86 years, two months and 18 days, died yesterday at her home, corner of Green and Station streets. She is survived by a sister, Mrs. John S. Elliott, of Pittsburgh, and two sons, Cassius M., of McKeesport, and John R., of Pittsburgh.

Funeral services will be held at the home at 7:30 o'clock this evening. They will be continued in the chapel at the West Newton Cemetery at 3 o'clock Friday afternoon, with interment following in the West Newton Cemetery.

Mrs. Paul was born at Carlisle but moved with her parents to Mount Pleasant when six years of age. At the age of 18 she was married to Philmar Paul. For 85 years she made her home in West Newton. She came to Greensburg about nine years ago to live with her sister, the late Mrs. W. G. Muse.

DANIEL T. HIRLEMAN, Funeral services for Daniel T. Hirleman will be held Saturday afternoon at 2 o'clock at the family home in East Murray avenue, with Rev. Dr. W. H. Hattick, pastor of Trinity Lutheran Church, officiating.

Kills Pesky Bed Bugs P. D. Q.

Just think, a 35c box of P. D. Q. (Pesky Devil's Quinine), makes a quart, enough to kill a million bed bugs, roaches, fleas or cockroaches and stops future generations by killing the eggs and does not injure the clothing.

Liquid fire to the bedbugs is what P. D. Q. is. The bedbugs start to feed when a person is in bed. P. D. Q. is a powerful insecticide that kills the bedbugs and their eggs. It is safe for use in the home. Sold by J. C. Moore, Druggist.

Safeguarding Health At County Fairs

HARRISBURG, Sept. 6.—As a means of safeguarding the health of persons who will be in attendance at the various county fairs during the next few weeks, the State Department of Health has provided for their protection against communicable diseases by advance notification to all fair associations secretaries that state health officers will be in daily attendance at every fair to enforce the provisions of the restaurant hygiene law, which provides that all food handlers, their assistants and employees shall have physicians' certificates of freedom from communicable disease; that all dishes, towels and receptacles or utensils used in eating shall be thoroughly cleaned after each individual use, and that roller towels and common drinking cups may not be used.

Local Tennis Players Go To Brownsville Today; at Scottdale Courts Saturday

Connellsville Racquetters in Demand as Opponents in Nearby Towns.

HALF DOZEN TO ENGAGE

Members of the Connellsville Tennis Association are becoming quite popular as opponents in inter-city clashes. On Monday the Brownsville association members came here for a tilt and were so pleased with the treatment accorded them that they immediately extended an invitation to the Cokers to visit them on their home courts.

This afternoon a group of local racquetters will go to the river town and endeavor to show their wares as they did on the South Side courts Monday when three of the five sets played were won by home material.

Yesterday an invitation was received from Scottdale to go there on Saturday afternoon and O. R. Herwick, president of the local organization, has arranged to take half a dozen men with him.

The courts on the South Side are still popular among the members and in spite of the fact that the season does not have much longer to run there is always a good turnout on the clay during the afternoon and evenings.

FORTY-ONE IN FOOTBALL LINE AT SCOTSDALE

Special to The Courier.

SCOTSDALE, Sept. 5.—As the last sound of the dismissal gong died out Monday afternoon there poured in to Coach Bullock's room some 41 strapping big fellows all primed up for one of the most successful football seasons that Scottdale has ever had. Bullock started the ball rolling by giving a snappy talk which demanded hard work and lots of it from the candidates. This was followed by another address by Captain Harold Smith who used slightly more impressive language in voicing his demands for no smoking, regular hours, etc. Several other talks were given by the letter men who left the impression that the only thing to do this fall was to fight.

The candidates are: Letter men—Small, captain, Maloy, White, Boyle, Dinkins and Barkell; others—Pritchard, English, Reynolds, Sales, Robins, J. Ulery, C. Ulery, Osterwald, Ludy, Kell, Griffith, Edward, Webb, Kunkle, Ruth, Loucks, Campbell, Van Horn, Brinkley, Marshall, Coleman, Weniger, Porter, Brooks, Wall, Dairs, Mack, Bryan, Miller, Hough, Updike, Turk, Miller and Barnhart.

Of Interest to Fans.

The Pittsburgh Pirates, defeating the Cincinnati Reds yesterday afternoon, 1-2, gained half a game on the New York Giants as that team was idle and at the same time set Cincy back half a game.

Football practice at Fayette Field yesterday was checked on account of the heavy rain which fell throughout the afternoon. The downpour was not just a common shower but a rain of no small proportions.

Joan George, the snappy halfback of last season, was in school yesterday. Joan is ready to get into his grid togs again and will be out for a berth on the Orange and Black eleven.

Automobile racers who engaged in the opening of the new bowl at Altoona on Tuesday paid tribute to Howard Wilcox, veteran racer, who was killed when his machine overran. As there was no claim for death-place money the other drivers requested that the \$500 go to his widow, together with additional prize money of \$250. The body was accompanied to the Indianapolis home by Fred Dusenberry, president of the Dusenberry factory, whose cars Wilcox drove.

Uniforms have been distributed to candidates for positions on the High School football team. Much of the old material is in good shape and some new equipment has also arrived.

The gridirers are hoping for cooler weather by September 22 when the season opens at Fayette Field with Youngwood-High School.

Sargeant says a movie fan is to teach golf on the screen. However, golf is not played on the screen, but on the green.

In the picture pages there is practically no difference between a lady female champion and an interior decorative dancer.

The Playground and Recreation Association of America will hold its fifth annual congress at Springfield, Ill., Oct. 8 to 12.

New Haven and Worcester traded third basemen. Wash going from the Reds to the Sox for Gallagher, who has been with Worcester.

BEST PINCH HITTER IS MATTER OF DOUBT

Sammy Strang Loses Something He Never Had.

Samuel Strang Nicklin, owner of the Chattanooga baseball club, has lost something he never had. Nicklin, perhaps, is not particularly known to baseball fans throughout the country, but Sammy Strang, former member of the Giants, is known from one end of the country to the other. They are one and the same.

Sammy for years has been credited with a record as the premier pinch-hitter of baseball. It is alleged that he made 14 pinch hits in as many consecutive games. This record was questioned, and an investigation was made. It resulted in determining that Strang did not perform any such feat.

That discovery really has not detracted from Strang's fame as a pinch-hitter, however. The fact remains he was a deerbound for speed and he could either hit it out or bunt. That's the kind of a pinch-hitter he was.

He undoubtedly made his full share of pinch and timely hits, and whenever started the record evidently confused the two, figuring that a timely hit when Strang was playing regularly in the game was the same as a pinch hit. That is not accurate. A pinch-hitter is one who bats the ball as a substitute for another batter. When a player is playing regularly he may make a hit to an emergency, but that fact does not make him a pinch-hitter as the term is known in baseball.

The old yarn that has lived for more than 16 years about Strang and the 14 pinch hits in succession is simply a story of baseball fiction like so many other stories of individual performance in the game which will not stand investigation when the scores are given a good raking over.

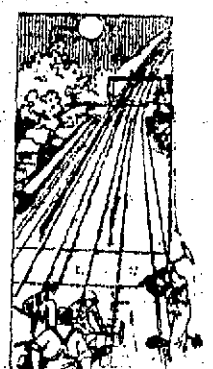

Strang went to bat as a pinch-hitter 15 times in less than one month and possibly the story that he had made 14 pinch hits in succession grew out of that fact. In those 15 times at bat he missed making a pinch hit about as often as he made one.

The claim for the pinch-hitting championship can now be put forth by some one else. Strang had been considered to be the leader for so long that the title never had been allotted to any other player. If there is one who has the reputation of having made ten pinch hits in succession he seems as likely to be entitled to the crown as anyone else.

Prosperous Railroads

A Public Necessity

FOR a generation or more the Pennsylvania Railroad paid its stockholders six per cent. and nearly always had something substantial to put back into the property out of earnings. In good years it followed the rule of a dollar for dividends and a dollar for property. It was a good sound rule and if it had not been followed for so many years that great property would never have attained to its present splendid development.

The chief need of the times is to bring back railroad prosperity once more. That means the restoration of railroading to the plane of a profit-making industry, in order that it may again attract adequate capital for the proper expansion of lines and facilities. For the present a real politically is the most urgent requirement in that direction.

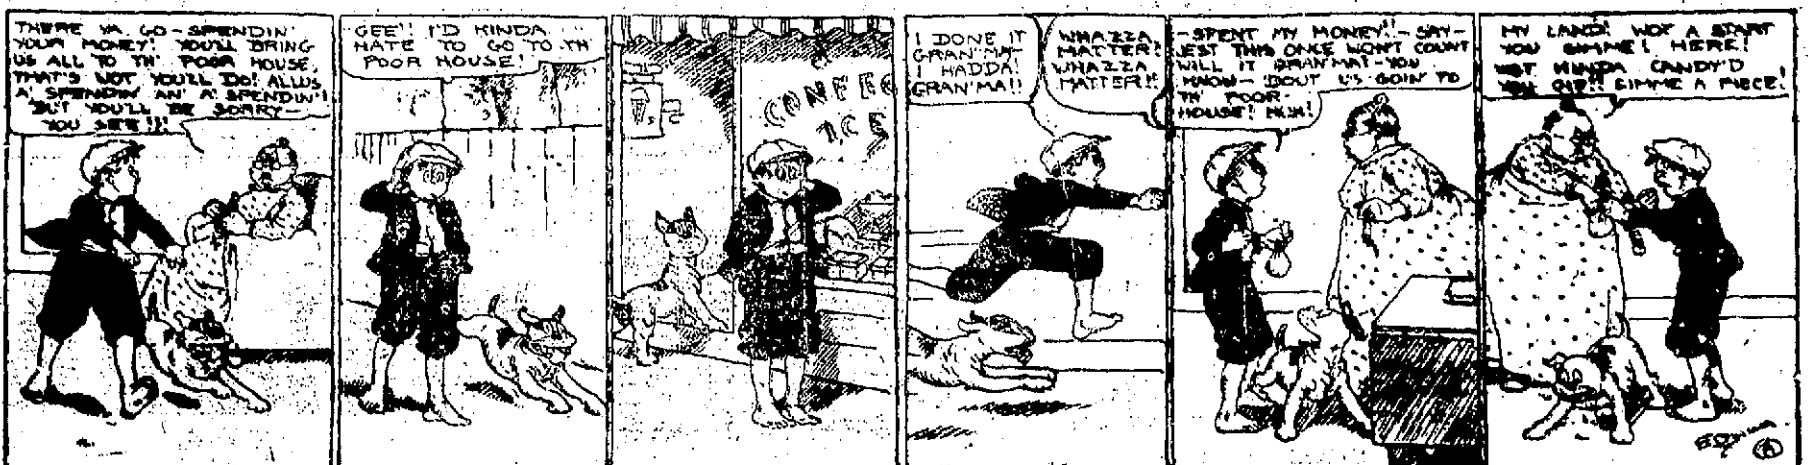

Prosperous railroads, efficiently operated, are a public necessity and the railroads need only the opportunities that are freely accorded to other forms of enterprises to resume their old position of leadership in the progress and advancement of the country.

Don't Experiment Buy a 1924 Studebaker

The 1924 Studebaker Light-Six Touring car, with its refinements and improvements, offers the closest approach to mechanical perfection in moderate priced cars yet produced.

It continues to set the pace in the amount of value for the money invested. No radical departure from approved design has been attempted. There's nothing experimental about it—everything of recognized merit. Every vital unit has proved its satisfaction in the public use.

No matter how much money you expect to invest in a car, by all means see this Light-Six touring car, ride in it—and drive it yourself. It is then that you realize the difference.

Comparison with other cars costing more—or less—will provide convincing proof of its greater dollar-for-dollar value, its dependable performance, ample power, extreme comfort, and many other desirable features.

The Light-Six is practically free from vibration because Studebaker machines the crankshaft and connecting rods on all surfaces. No other manufacturer follows this practice on a car at anywhere near the Light-Six price. This is just one of many superiorities.

After seventy-one years, the name Studebaker enjoys confidence and respect more than ever.

New all-steel body of striking beauty. One-piece, rain-proof windshield with attractive cowl lights set in frame. Quick-action coil ventilator. Door curtains, bound on three sides by steel rods, open with doors. Removable upholstery in tones. Door pocket. Bag with weights hold them in shape. Upholstered in genuine leather. Large rectangular window in rear curtain. Theft-proof transmission lock.

At the Theatres

The Paramount

"DON QUICKSHOT OF THE RIO GRANDE," with Jack Hoxie in the title role, and a selected comedy, provide splendid entertainment today at this theatre. Friday and Saturday "The Girl From the West," with Juanita Hansen in the stellar role, will be shown. Others of the cast include Jack Richardson, Larry Howard and Ed. Sutherland.

The Soisson

"THREE WHO PAID," featuring Dustin Farnum, opened today at this theatre for a three day attraction.

It is a William Fox production and was written by George Owen Baxter, one of the most famous novelists of the age. Joseph Franklin Poland, one of the country's leading scenarists, wrote the screen version of the book.

From the story, the picture play promises to be full of action and rapid fire interest. The role of Riley Sinclair, around whom the play revolves, is well suited to Mr. Farnum. He is the popular, leading woman, is playing a dual role in this new, gripping, western photoplay. Early in the picture she takes the part of the schoolmaster. It later develops that she was masquerading and she appears as the simple, sweet little Miss who has endeared herself to the hearts of all moviegoers.

Frank Campeau, who is well known to screen fans, again appears as a villain in support of Farnum. These two sterling actors have appeared in many stage and screen successes together and their fights are always worth going a mile to see.

Others in the cast include Fred Kohler, Robert Daly, William Conklin and Robert Agnew.

The Orpheum

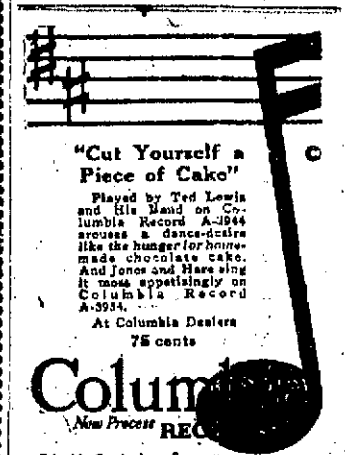

"HOLLYWOOD," a marvelous Paramount picture fairly packed with stars, is the leading attraction today at this theatre.

Besides the ones who play the "strangers in a strange land" — including Luke Cosgrave, G. K. Arthur, Ruby Lafayette, Harris Gordon, Bess Flowers, King Zany and others, the picture shows more than a score of famous screen folks. These are the ones the heroine, a girl from the middle west, finds when she visits the studios seeking work, or notices at the hotels or on the boulevards: Cecil B. DeMille, Pola Negri, Thomas Meighan, William S. Hart, Agnes Ayres, Jack Holt, Walter Hiers, Leatrice Joy, Jacqueline Logan, Nita Naldi, Betty Compson, Lila Lee, May McAvoy, Theodore Kosloff and 40 other celebrities. The story is by Frank Condon, adapted by Thomas Geraghty. This is no expose, no propaganda, but just a straightway tale of the sort that will appeal to all who love pictures and want to know all about how folk get in them, how they are made and go on. There's a fine romantic strain, love interest in plenty and an abundance of comedy, of the best quality.

Several faces unfamiliar to the screen public will appear in leading roles which add zest to the whole thing.

Friday and Saturday Walter Hiers will appear in "Sixty Cents an Hour."

Mr. and Mrs. Henry Grim of Rogers Mill attended the funeral of the former's niece, Mrs. Daniel Grim, Jr., of Normalville.

Dawson

DAWSON, Sept. 6.—Dawson was visited by burglars on Monday night. The front window of the Korngauz furniture store on Railroad street was broken. It is thought that this was done while a freight train was passing by. Quite a lot of clothing, etc., is missing. There is no clue to the thief.

Mrs. James Hurst has returned to her home in Scotland after a few days' visit at the home of Mr. and Mrs. J. C. McGill.

The new grandstand at the Dawson Fair Ground will be finished today. With the new addition it is 308 feet long. A new band stand is built in it. The grandstand is lighted with electric lights. New lights have been installed along the midway. A new sheep barn has been built and two new cattle barns added this fall. The fence has been moved back and four more acres have been added to the grounds. Mr. Cochran says that with good weather, we will have one of the best fairs ever held on the grounds.

W. H. Forsythe is taking in the fair at Wheeling this week.

Mr. and Mrs. Fowler P. Newmyer and children of Dickerson Run have returned home from a 10 day visit at Ashland, Ohio.

GOOD SOAP FOR TWO CENTS A POUND

Make It At Home By This Easy Process—Takes Less Than 30 Minutes.

Nowadays, more and more women are doing as their mothers did and are making their own soap. If you have never tried it, you will be surprised to see how easy it is to make good soap, soft soap, hard soap or floating soap, just by using kitchen scraps and waste grease to go with a can of MERRY WAR LYE, the safe and sure soapmaker. In the old days when soap was made by the boiling process, it took nearly 12 hours to make a kettle of soap. Now it is hardly any work at all—requiring no boiling—takes less than 10 minutes. Saves you money and gives you all the pure, clean soap you need for kitchen, laundry and all household purposes. You will find the directions for soapmaking on the label of every can of MERRY WAR LYE.

Here's Newest Hair Style, Aimed To Aid Misses Whose Shorn Locks Are Growing Out

NEW YORK—Bobbed-haired maids, the country over, will be delighted with the new coiffure put forward by the National Hair-dressers' Association. It is intended to accommodate the girl whose hair is in the awkward "in-between" stage of growing out again. By modelling the short-long locks, and tucking up the ends in the back with two or three hair-pins and a Spanish comb, the flapper of yesterday becomes the model of today.

"We had to do it," said the hair-dressers. "We can't say that bobbed hair is going out, but it can't go out till it grows out. Hence we must postpone more elaborate coiffures until the shorn locks are long enough to manipulate."

Straight Dresses Favored in Paris

Mode Is Doomed for Winter
Wear, According to the
Fashion Writer

There is war in the world of dress! Not an unfriendly war, nevertheless one which is being carried on with determination. It is a war of length versus breadth.

My personal opinion, states a fashion correspondent in the Boston Globe, is that there is not a shadow of doubt about the winner—for this year, at least, "length" has become an established favorite; that is to say, the tunic-dress outline.

At the beginning of the year one heard many rumors about a drastic change of line. Many of the leading dressmakers of Paris tried hard to get this change accepted by the women who have influence in dress matters, but it was no use. Straight dresses which display the outline of the figure and which had a youthful effect remained strong favorites. Full and fancy dresses were accepted here and there, for evening use and for special summer fests, but not for general wear; and so it happened that the majority of the dress people in the rue de la Paix, etc., accepted a defeat and quickly turned out straight models, surprisingly short and tight, which gave general satisfaction.

For the summer, at least, these straight models will remain in favor but the advocates of full—even hooped—skirts have only retired for a moment. They have not changed their opinions. Certain attractive actresses have been induced to appear on the stage in the Second empire ball dresses of ultra attractive appearance. Winter-halter hats and debus call for flounced skirts and early Victorian corseges. And so the thin end of the wedge is being steadily inserted.

It is not safe to make distant predictions, but I am afraid that the present season will see the last of our lovely straight dresses; that when winter comes we shall have grown used to flounces and fuzzy billows, even hoops. A wonderful specimen of modified Second empire dress certainly created a sensation. The foundation was gold lame, with a series of gathered flounces in the gold lace. The corsege was draped tightly round bust and waist, with a bertha of gold lace falling over the shoulders. A magnificent touch of color was introduced in the form of deep pink polka-dots which seemed to glow against one side of the skirt, one gorgeous blossom resting on the right shoulder, or rather, falling off it.

A very famous Paris dressmaker, Lanvin, seems satisfied that smart women will really accept this style, and in the near future. But then Lanvin is now showing quite a different silhouette—curious models which are very tight over bust, waist and hips, and which then flare out in an astonishing manner. One of these models was made of fine black lace, elaborately shirred over the hips, with a tight cascade corsege and immensely full flounces spreading out from a low hip line. As one side there was an enormous ruffa how, with ends which trailed on the ground. Molyneux also is showing models which are tight down to a very long hip line and which then break out into wide, very full flounces. This is a revival of 1890 styles. It is becoming to women of exceptionally good figures, tall and slender, but the

average woman will find such dresses distinctly trying.

Lightweight Sweater for Little Daughter

An attractive slip-on sweater for the little girl is in turquoise blue, with two pink stripes around the collar and bottom. It is made of wool in a light weight and is finished with a cord tie with fluffy blue and pink balls.

Plain Tailor-Mades for Fall and Winter Wear

The fall and winter seasons of 1923-4 will witness a gain in production and distribution of plain and semipain dress goods.

With the heads, backs and busts of women everywhere decorated with embroidery, it seems to be a logical conclusion that the smart set will be driven to the other extreme, viz., plain tailormades. If they wish to appear as being distinctively dressed.

In the exclusive New York shopping district one notes most dresses made from navy blue worsted twills and bearing all the earmarks of a skilled ladies' tailor.—Dry Goods Economist.

Use Colored Beads to Adorn Your Gauntlets

Colored beads are used for a variety of purposes. One of their most attractive uses is to adorn a pair of gauntlets. Plain gauntlets, can be turned into a handsome pair by trimming with beads and narrow velvet ribbon. Stitch two rows of the velvet around the cuffs. Then take large (painted) wooden or glass beads of vivid colors or of shades that match your costume all around the edges of the cuffs. Worn with a medium-length sleeve, these beaded gauntlets are very effective.

MANY PROBLEMS TO COME BEFORE A. F. OF L. CONVENTION

Will Deal With Domestic and World Matters in the Realm of Labor.

WILL RE-ELECT GOMPERS

By A. I. BRADTON
Copyrighted 1934 by The United Press
WASHINGTON, Sept. 6—American Labor's voice on great domestic and world problems will be spoken at the next annual convention of the American Federation of Labor, meeting at Portland, Oregon, starting October 1.

The only set order of business at the convention—as is always the case with the annual conventions of the federation—will be the report of the executive council of the labor body.

Because, however, of the great number of important issues in the United States affecting labor and the world crisis in Europe the coming convention of the American Federation of Labor is expected to be one of the most important ever held.

The convention is scheduled to last about two weeks, but may continue longer if all business on hand has not been finished.

While it is explained that it is very difficult to forecast the questions to be taken up at an annual convention of the Federation of Labor because in view of the fact that labor's interests are so widespread, these meetings have the whole world as a field of discussion, the following forecast has been obtained from federation officials as a fair forecast of the problems to be dealt with at Portland.

The Steel Industry.
Labor's recently announced intention to make a new and more vigorous effort to organize the great army of steel workers in the United States is expected to be one of the principal subjects to be discussed at the convention.

The labor chiefs then undoubtedly will express the American Federation of Labor's attitude on the steps which Judge Elbert H. Gary, chairman of the United States Steel Corporation, has announced already to put the steel industry on an 8-hour-day basis.

These steps were taken in accordance with the promise of the heads of the steel industry to the late President Harding to put the steel mills on an 8-hour-day basis as soon as possible and practicable.

At that time, however, this promise of the steel corporation was described as "bluff" by Samuel Gompers, veteran president of the American Federation of Labor.

Europe undoubtedly will be a principal problem, before the labor convention. The federation's attitude on the world crisis abroad, the financial and economic problems in Germany, the strained relations between France and Great Britain and the continued competition in armaments is believed almost certain to be stated.

Injunctions and Strikes.
The question of the permanent injunction against strikes, the "thorn in labor's side," will have a prominent part in the discussion of the labor chiefs at Portland.

National politics also are expected to have a ranking place on the calendar of the convention. There probably will be a survey of the national and state congressional situations from the standpoint of labor's interests. There may be some discussion also of different presidential candidates.

Immigration is a vital question to labor, and the Portland convention is expected to voice its position for a restricted immigration, to protect the present wage and living standards of American labor.

The fate of the railroads and the situation in the coal industry are almost certain to be questions on which labor will express its opinion.

In the discussion of world affairs, labor probably will repeat its condemnation of the tactics of Soviet Russia.

Although Gompers has been the president of the American Federation of Labor for many years, this post is open for election at each annual convention. According to federation officials, however, there seems to be no contest with Gompers for the presidency this year.

Does Burning Coal Make Earth Lighter

The question is asked "Does each ton of coal burned make a lighter globe?" A coal man wants to know to what extent the weight of the earth has been decreased by the removal each year of the immense tonnage of coal that is mined and burned.

One person to whom this question was submitted said there was no effect; that it is not possible to destroy anything in nature though we may change its form. The coal that is extracted from the earth remains with us, either in the form of ashes or gases so that the net result is that the globe weighs as much as it did before.

Complaint Against B. & O. Rates.
The Jones & Laughlin Steel Company has filed complaint against the Baltimore & Ohio Railroad before the Interstate Commerce Commission, alleging rates on iron and steel articles from Pittsburgh to St. Louis and eastern Illinois are unreasonable.

Coal and Coke from Ruhr.
France is getting only about one-third as much coal and coke out of the Ruhr at the present time as was previously received from the regular transportation deliveries.

INCREASE IN BUYING STEEL HAS NOT COME WITH CHEERFUL NEWS

Production and Shipments Keep Up Well Attesting that Large Consumption Is Still Taking Place

Special to The Weekly Courier—NEW YORK, Sept. 5—The American Metal Market and Daily Iron & Steel Report will review the steel and iron trade tomorrow as follows.

The cheerful, and even sanguine, reports of the past month of the iron being improved and sentiment being better in the steel market have not been followed by the increase in actual buying that would naturally be expected to result from such a change of feeling on the part of steel buyers. On the whole there was probably less new business done in steel in the second half of August than in the first half. The market is substantially as dull now, as to actual transactions, as at any time in August.

Retraction of the statement that July and August are naturally dull in the steel market and September would naturally show a great improvement, may now have a bad effect in producing disappointment that there is no great increase in the volume of business.

Steel production and shipments keep up very well, furnishing testimony to the largeness of current consumption. Operations have undergone no great change since the end of June, input production being probably at between 10 and 15 per cent under the peak rate of last April.

The American Sheet & Tin Plate Company opens its order books Thursday of this week on fourth quarter sheet and tin plate business. Prices, as fully expected, are unchanged. A little selling by independents preceded the opening by the leading interest, which was in no hurry to open the fourth quarter since it must carry over much business.

Sheet bars are practically certain to be quoted at \$42.00 by the mills generally.

While the finished steel markets have appeared quiet for three months past there is a fair volume of new business going. The mills that had the leaner order books are supporting their operation chiefly on this new business, while other mills were well sold up and are running on specifications.

Pig iron, in general, is showing a somewhat firmer tone from week to week. Buying is running well below other production or consumption.

Future Invention.
The ever busy scientific research worker in his laboratory has succeeded in making a superior grade of rubber from the cactus so widely found in the southwestern United States. In South Africa a man has found a way of converting the juice of the prickly pear into industrial alcohol. Probably our dandelions and daisies and buttercups contain alcohol, too. Perhaps some day Winifred will ship her old people and invalids to Baffin, land to the summer and the West Indies in the winter in flying machines driven with weed-made alcohol fuel. And our heating and cooking and lighting and transportation and factory power may come from sea-power. The ebb and flow of the tides furnishes an inexhaustible reservoir of electric power. Above Bristol on the Severn river in England, a great project is being planned to dam the river and utilize the ebb and flow of the tide for electric power purposes. The high spring tides rise forty feet there.

ALL IN THE DAYS "WORK"

At Least This Incident Should Have Relieved the Monotony of Physician's Routine.

In the evening office hours of a busy physician of the east part of the city a four-year-old lad sat awaiting his turn to interview the physician. The physician was surprised when the lad came into the room to see that he was alone. But the lad, not in the least alarmed, walked in, told the physician his name and where he lived, and then said: "I just came to see when you are going to bring a baby to our house."

At the physician's hesitancy to answer, the youngster said: "There's no hurry, but I wish you would bring one soon." Laddie was not known by the physician, and was many blocks from home, so he asked Laddie whether he should call Laddie's mother, so she would know where he was. The child replied: "I'd rather you wouldn't—but if you will watch until I get across the street I can get home all right."

The busy physician took time to watch Laddie across the street, and as far as he could see, Laddie was treading hopefully along apparently undisturbed by the night—Indianapolis News.

News For The Foresighted Shopper - Big, Warm Blankets Ready!

A FEW short weeks and November—good, old blustering November—will be here. Will your supply of blankets be adequate enough to keep all the family warm? This showing—over and above the thought of reasonable prices—stresses the quality of the blankets that it brings. Foresighted women will do their choosing now when assortments are most complete.

California All-Wool Blankets \$13.50 Pair

Good 5 lb weight with neat sette binding. Good-looking plaid patterns bring cherry color to your bedrooms. White with helio, pink blue, tan, corn and cream are the available combinations. 70x80 size.

70x80 All-Wool Blankets \$15 Pair

5-lb. blankets bound with sette. An exceptionally lovely quality, warm, snug and comfortable. Plaid patterns combine blue-white, tan-white, and rose-white. At \$15 the pair.

70x80 Wool-Mixed Blankets \$7.95 Pair

Finished with stitched edge—weigh five pounds. Attractive plaid patterns are blue, grey, pink and tan in color. These blankets are good to look at and promise you no end of winter comfort. \$7.95 Pair.

5 1/4 Lb. Wool Nap Blankets \$5.95 Pair

Measure 70x80 and are finished with stitched edge. Come in blue, grey, pink and tan plaid patterns. The quality will appeal to women who are on the lookout for good blankets, reasonably priced.

66x80 Wool Finish Blankets \$3.98

Plain grey, with pink border. The price is special. You will find it hard to find another blanket so admirably adapted for utility use. They are ideal for use as "extra blankets" when the weather becomes really bitter and the call goes forth for more blankets on your beds.

Blankets—Second Floor.

Something Good Is On The Way!

Something the like of which, to the best of our belief, Connelville has never seen before—which means that you'll not want to miss it. Details to come.

New Suits - for large women

THEY are strictly tailor-made, designed to successfully slenderize the larger women's figure—and it is a delight to see how capably they carry out their aim.

A graceful slenderness is their sole objective—they are not slender styles in large sizes, but styles created solely with the larger woman in mind.

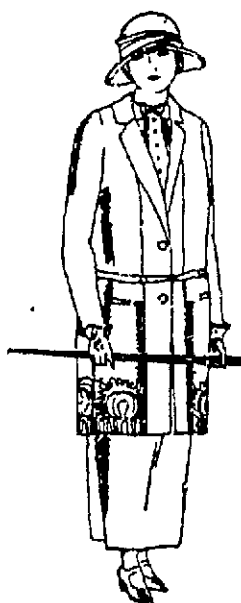

Developed in Poret Twill and Tricotine, beautifully tailored in the latest manner, trimmed with touches of braid, tiny tucks, and simple embroidery.

The showing is quite complete—but not so complete that it doesn't merit an early visit.

Sizes range from 39 to 52, the quality of the materials used is excellent and new prices range—
